If additional security procedures are necessary, processing times may range from 4-6 weeks. If your card takes longer than 6 weeks to process, please contact OISS.

Can I start working without a SSN?

In some cases at MSU, you may begin your employment without an SSN as long as your other hiring forms have been completed. When you receive your Social Security card, please provide a copy to your hiring department and/or the Payroll Office. Please make sure you consult your hiring department administrator before beginning any employment.

What if I lose my Social Security card?

Applications for replacement Social Security cards are exactly the same as applying for a new SSN, except you must disclose your existing SSN. All documents required for a new SSN application are also required for a replacement card application.

What if my name is incorrect on my Social Security card?

If your name is incorrect, please return to the SSA office with your passport, I-94 card, and related documents to request a correction. If you experience difficulty correcting your name, please contact OISS.

Security and Identity Theft

Your Social Security card should be kept in a safe place and your SSN should be given out only as needed to guard against "identity theft." See <http://www.consumer.gov/idtheft> for more information on identity theft, or the SSA's information on Social Security fraud at: <http://www.ssa.gov>.
